that their backs trail in the water. The man with the ballast puts a fifty pound piece of lead on his chest and another on Americans who like to the best and another on Americans who like to the best and another on Americans who like to the best and another on the best and other ports by hardy plece of lead on his chest and another on his knee, but despite this the dingy takes in water fast. It is hard, wet work for the bailer.

Then the wind suddenly goes, but not

Then the wind suddenly goes, but not before the "conner" divines the change. A word from him tells the crew that the boat is coming quickly to an even keel. The ballast man shifts his weight inboard, the others slip off the gunwale to ease their craft and she shoots into the wind as the helmsman luffs. They drive her their craft and she shoots into the wind as the helmsman luffs. They drive her hard with each heavy gust of wind, while the mast buckles like a whip and every rope is taut. The game is to "outwind" the other fellow and drive him off his course, so that he will lose distance on each tack

ach tack. Then they round the windward stake-boat and break out their spinnakers. It is ticklish work, for the boats roll under the increased weight aloft. The crew huddles aft with the ballast to prevent them from burying. Often the speed is so great that hulls are not visible above water and the men appear to be sailing

water and the men appear to be saming between two curtains of foam.

So they go, but sometimes the wind proves too strong. The dingy fills with water and slowly settles until mast and wind properly. The rigging takes me. Every bit of gear must be All dingies carry a buoy and coil of

elements in deep water, and every year there are motor boat races also. These contests have not only provided the best of sport but they have taught many important things to designers of sail and power craft. They have also enabled American yearlymen to swan ideas with American yachtsmen to swap ideas with their Bernudan brothers and to see the game as it is played in the islands. Aside from the fun of watching the numerous races there is rare sport for

Florida East Coast Hotel Com-The Colonial is a modern hotel.

The rooms are large and airy. The hotel maintains an orchestra which plays three times daily. One of the social events is the "hop" on Saturday nights. Informal dances are given Wednesday evenings, and Washington's Birthday is made the occasion of a grand ball. The Sea Gardens are an hour's ride

the Atlantic and set with forts several hundred years old. A clubhouse is provided for players, furnished with lockers, shower bath, &c. It is a regularly constituted organization, with president and greens committee in authority. Tournaments for prizes offered by guests and others are of weekly occurrence, and the annual tournament for five handsome cups presented by the Florida East Coast Hotel Company occurs in February. Like all West Indian colonies, almost every diversion has a tinge of sociability

This view from North Road, Paget, shows Hamilton in the distance, one of the attractive Bermudian vistas.

#### Quaint Scenes and Beautiful Vistas Are Part of the Enjoyable Features of This British Possession

not always present in our more prosaic country. Every afternoon has pole, football, cricket, golf, tennis, picnics or garden parties of some sort, all having some expression of hospitality for the visitor on the side lines, and not infrequently connected with the inevitable English cup of delicious tea.

Nassau may be reached by through Pulfmans from New York to Miami, Fla., and thence by steamship Miami of the P. & O. Line to Nassau. The sailing time is about seventeen hours. This line operates tri-weekly service both ways during the greater part of the season. An all sea trip direct from New York to Nassau may be taken by the Ward Line steamers. This line operates a weekly service during January, February and Nassau may be taken by the Ward Line steamers. This line operates a weekly service during January, February and Nassau may be taken by the Ward Line steamers.
